Otter Creek Long/Short Opportunity Fund

NOTES TO THE FINANCIAL STATEMENTS – April 30, 2024 (Unaudited)

NOTE 1 – ORGANIZATION

The Otter Creek Long/Short Opportunity Fund (the “Fund”) is a diversified series of shares of beneficial interest of Professionally Managed Portfolios (the “Trust”), which is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification topic 946 “Financial Services-Investment Companies.” The Fund commenced operations on December 30, 2013.

The Fund currently offers two classes of shares: Investor Class and Institutional Class. Each class of shares has equal rights as to earnings and assets except that each class bears different distribution expenses. Each class of shares has exclusive voting rights with respect to matters that affect just that class. Income, expenses (other than expenses attributable to a specific class), and realized and unrealized gains or losses on investments are allocated to each class of shares based on its relative net assets.

The Fund’s objective is to seek long-term capital appreciation.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund. These policies are in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

A. *Security Valuation.* All equity securities, which may include Real Estate Investment Trusts (“REITs”), Business Development Companies (“BDCs”), and Master Limited Partnerships (“MLPs”), that are traded on U.S. national or foreign securities exchanges, are valued at the last reported sale price on the exchange on which the security is principally traded or the exchange’s official closing price, if applicable. If, on a particular day, an exchange-traded security does not trade, then the mean between the most recent quoted bid and asked prices will be used. All equity securities, which may include REITs, BDCs, and MLPs that are not traded on a listed exchange are valued at the last sale price in the over-the-counter market. If a non-exchange traded security does not trade on a particular day, then the mean between the last quoted closing bid and asked price will be used.

Debt securities are valued by using the evaluated mean price supplied by an approved independent pricing service. The independent pricing service may use various valuation methodologies including, matrix pricing and other analytical pricing models as well as market transactions and dealer quotations. These models generally consider such factors as yields or prices of bonds of comparable quality, type of issue, coupon, maturity, ratings and general market conditions.

Exchange traded options are valued at the composite price, using the National Best Bid and Offer quotes (“NBBO”). NBBO consists of the highest bid price and lowest ask price across any of the exchanges on which an option is quoted, thus providing a view across the entire U.S. options marketplace. Composite option pricing calculates the mean of the highest bid price and lowest ask price across the exchanges where the option is traded.

Securities for which market quotations are not readily available are valued at their respective fair values as determined in accordance with procedures approved by the Board of Trustees (the “Board”). Pursuant to Rule 2a-5 under the 1940 Act, the Board has designated Otter Creek Advisors, LLC (the “Advisor”) as valuation designee to perform fair value determinations relating to the Fund’s portfolio investments, subject to the Board’s oversight. Fair value pricing is an inherently subjective process, and no single standard exists for determining fair value. Different funds could reasonably arrive at different values for the same security. The use of fair value pricing by a fund may cause the net asset value of its shares to differ significantly from the net asset value that would be calculated without regard to such considerations.

As described above, the Fund utilizes various methods to measure the fair value of its investments on a recurring basis.

U.S. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive

Otter Creek Long/Short Opportunity Fund

NOTES TO THE FINANCIAL STATEMENTS – April 30, 2024 (Unaudited) (Continued)

market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following is a summary of the inputs used to value the Fund’s investments and securities sold short as of April 30, 2024. See the Schedules of Investments and Securities Sold Short for industry breakouts.

The Fund has adopted financial reporting rules and regulations that require enhanced disclosure regarding derivatives and hedging activity intending to improve financial reporting of derivative instruments by enabling investors to understand how an entity uses derivatives, how derivatives are accounted for, and how derivative instruments affect an entity’s results of operations and financial position.

The Fund may invest in options on equities, debt and stock indices. The Fund may make these investments as a substitute for a comparable market position in the underlying security, to attempt to hedge or limit the exposure of the Fund’s position, to create a synthetic money market position for certain tax-related purposes and to effect closing transactions. The Fund may write covered put and call options on securities, securities indices and currencies in which it may invest to serve as a partial hedge against a price decline of the underlying security.

Rule 18f-4 imposes limits on the amount of derivatives a fund can enter into, eliminates the asset segregation framework currently used by funds to comply with Section 18 of the 1940 Act, treats derivatives as senior securities and requires funds whose use of derivatives is more than a limited specified exposure amount to establish and maintain a comprehensive derivatives risk management program and appoint a derivatives risk manager. Effective August 19, 2022, the Fund has adopted a Full Derivatives Fund Program and the Advisor has nominated a Derivative Risk Manager.

The average absolute notional value of options purchased and written during the six months ended April 30, 2024 was \$47,622,763.

- B. *Federal Income Taxes.* The Fund has elected to be taxed as a “regulated investment company” and intends to distribute substantially all taxable income to its shareholders and otherwise comply with the provisions of the Internal Revenue Code applicable to regulated investment companies. Therefore, no provision for federal income taxes or excise taxes has been made.

In order to avoid imposition of the excise tax applicable to regulated investment companies, the Fund intends to declare each year as dividends in each calendar year at least 98.0% of its net investment income (earned during the calendar year) and 98.2% of its net realized capital gains (earned during the twelve months ended October 31) plus undistributed amounts, if any, from prior years.

As of the most recent fiscal year ended October 31, 2023, the Fund did not have late year losses. As of the most recent fiscal year ended October 31, 2023, the Fund had short-term capital loss carry-forwards of \$273,125 available for federal income tax purpose, which do not expire and retain their original character.

As of April 30, 2024, the Fund did not have any tax positions that did not meet the threshold of being sustained by the applicable tax authority. Generally, tax authorities can examine all the tax returns filed for the last three years. The Fund identifies its major tax jurisdiction as U.S. Federal and the Commonwealth of Massachusetts. As of April 30, 2024, the Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially.

- C. *Restricted Cash.* Restricted cash represents cash committed as collateral for securities sold short. Such cash is isolated from cash held in the Fund’s custody account in the Statement of Assets and Liabilities. See Note 2, part I, for more information on securities sold short.
- D. *Security Transactions and Investment Income.* Investment securities transactions are accounted for on the trade date. Gains and losses realized on sales of securities or closing transactions of securities sold short, are determined on a specific identification basis. Discounts/premiums on debt securities purchased are accreted/amortized over the life of the

respective securities using the effective interest method. Dividend income is recorded on the ex-dividend date. Dividends received from MLPs and REITs generally are comprised of ordinary income, capital gains, and may include return of capital. Interest income is recorded on an accrual basis. Other non-cash dividends are recognized as investment income at the fair value of the property received. Withholding taxes on foreign dividends have been provided for in accordance with the Trust's understanding of the applicable country's tax rules and rates.

- E. *Distributions to Shareholders.* Distributions to shareholders from net investment income and net realized gains on securities for the Fund is normally declared and paid on an annual basis. Distributions are recorded on the ex-dividend date.
- F. *Use of Estimates.* The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses during the reporting period. Actual results could differ from those estimates.
- G. *Share Valuation.* The net asset value ("NAV") per share of the Fund is calculated by dividing the sum of the value of the securities held by the Fund, plus cash or other assets, minus all liabilities (including estimated accrued expenses) by the total number of shares outstanding, rounded to the nearest cent. The Fund's shares will not be priced on the days on which the New York Stock Exchange is closed for trading. The offering and redemption price is equal to the Fund's NAV per share. The Fund charges a 1.00% redemption fee on shares held less than 60 days. This fee is deducted from the redemption proceeds otherwise payable to the shareholder. The Fund will retain the fee charged as paid-in-capital and such fees become part of the Fund's daily NAV calculation.
- H. *Guarantees and Indemnifications.* In the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.
- I. *Securities Sold Short.* The Fund may engage in short sales of securities, provided the securities are fully listed on a national securities exchange. In a short sale, the Fund sells a security it does not own, in anticipation of a decline in the market value of the security. To complete the transaction, the Fund must borrow the security to make delivery to the buyer. The Fund is then obligated to replace the security borrowed by purchasing it at the market price at the time of replacement. This price may be more or less than the price at which the security was sold by the Fund. The Fund will incur a loss on a short sale if the price of the security increases between the date of the short sale and the date on which the Fund replaces the borrowed security. The Fund will realize a gain if the security declines in price between those dates. The amount of any gain will be decreased, and the amount of any loss increased, by the amount of the premium, dividends, interest or expenses the Fund may be required to pay in connection with the short sale. The Fund is liable for any dividends or interest payable on securities while those securities are in a short position. Such dividend amounts are recorded on the ex-dividend date as a dividend expense.

Typically, the Fund will segregate liquid assets, which are marked-to-market daily, equal to the difference between the value of the securities sold short at the time they were sold short and the value of the collateral deposited with the broker in connection with the short sale (not including the proceeds from the short sale). While the short position is open, the Fund must maintain segregated assets at such a level that the amount segregated plus the amount deposited with the broker as collateral is equal to the current market value of the securities sold short.

- J. *Options Contracts.* The Fund may invest in options contracts that may be used to modify or hedge the Fund's exposure to a particular investment market related risk, as well as to manage the volatility of the Fund. When the Fund purchases an option, an amount equal to the premium paid by the Fund is recorded as an investment and is subsequently adjusted to the current value of the option purchased. If an option expires on the stipulated expiration date or if the Fund enters into a closing sale transaction, a gain or loss is realized. If a call option is exercised, the cost of the security acquired is increased by the premium paid for the call. If a put option is exercised, a gain or loss is realized from the sale of the underlying security, and the proceeds from such sale are decreased by the premium originally paid. Options are non-income producing securities.

Otter Creek Long/Short Opportunity Fund

NOTES TO THE FINANCIAL STATEMENTS – April 30, 2024 (Unaudited) (Continued)

- K. *Illiquid Securities.* Pursuant to Rule 22e-4 under the 1940 Act, the Fund has adopted a Board approved liquidity risk management program that requires, among other things, that the Fund limit its illiquid investments that are assets to no more than 15% of net assets. An illiquid investment is any investment that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment.
- L. *Recently Issued Accounting Pronouncements.* In June 2022, the FASB issued Accounting Standards Update 2022-03, which amends Fair Value Measurement (Topic 820): Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions (“ASU 2022-03”). ASU 202203 clarifies guidance for fair value measurement of an equity security subject to a contractual sale restriction and establishes new disclosure requirements for such equity securities. ASU 2022-03 is effective for fiscal years beginning after December 15, 2023 and for interim periods within those fiscal years, with early adoption permitted. Management is currently evaluating the impact of these amendments on their financial statements.

In March 2020, the FASB issued Accounting Standards Update 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting (“ASU 2020-04”), which provides optional, temporary relief with respect to the financial reporting of contracts subject to certain types of modifications due to the planned discontinuation of the London Interbank Offered Rate (“LIBOR”) and other interbank offered rates as of the end of 2021. The temporary relief provided by ASU 2020-04 is effective for certain reference rate- related contract modifications that occur during the period from March 12, 2020 through December 31, 2022. Management is evaluating the impact of ASU 2020-04 on the fund’s investments, derivatives, debt and other contracts that will undergo reference rate-related modifications as a result of the reference rate reform. The Financial Accounting Standards Board (“FASB”) approved an (optional) 2-year extension, until December 31, 2024, for temporary relief of transitioning away from the LIBOR. LIBOR is set to expire June 30, 2023. Companies were initially provided temporary relief through December 31, 2022 to update contracts moving away from LIBOR.

In October 2022, the Securities and Exchange Commission (the “SEC”) adopted a final rule relating to Tailored Shareholder Reports for Mutual Funds and Exchange-Traded Funds; Fee Information in Investment Company Advertisements. The rule and form amendments will, among other things, require the Fund to transmit concise and visually engaging shareholder reports that highlight key information. The amendments will require that funds tag information in a structured data format and that certain more in-depth information be made available online and available for delivery free of charge to investors on request. The amendments became effective January 24, 2023. There is an 18-month transition period after the effective date of the amendment.

- M. *Subsequent Events.* In preparing these financial statements, the Fund has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued. The Fund has determined that there were no subsequent events that would need to be disclosed in the Funds’ financial statements.

NOTE 3 – COMMITMENTS AND OTHER RELATED PARTY TRANSACTIONS

Otter Creek Advisors, LLC (the “Advisor”) provides the Fund with investment management services under an Investment Advisory Agreement (the “Advisory Agreement”). Under the Advisory Agreement, the Advisor furnishes all investment advice, office space, certain administrative services, and provides most of the personnel needed by the Fund. As compensation for its services, the Advisor is entitled to a monthly fee at the annual rate of 1.50% based upon the average daily net assets of the Fund. The Advisor, has contractually agreed to lower its management fee from 1.50% to 1.35% of the Fund’s average daily net assets. This contractual waiver is in effect until February 28, 2025, and may not be terminated without the approval of the Board. The Advisor has waived its right to receive reimbursement of the portion of its advisory fees waived pursuant to the advisory fee waiver agreement. For the six months ended April 30, 2024, the advisory fees incurred are disclosed in the Statement of Operations. The investment advisory fees incurred are paid monthly to the Advisor, net of any monthly waiver or reimbursement discussed below.

The Advisor has contractually agreed to limit the Fund’s annual expense ratio before dividends and interest on short positions and excluding Rule 12b-1 fees and any class-specific expenses to 1.55% of the Fund’s average daily net assets. The contract’s term is indefinite, will remain in effect until at least February 28, 2025, and may be terminated only by the Board. For the six months ended April 30, 2024, the fees waived are disclosed in the Statement of Operations. Amounts due from the Advisor are paid monthly to the Fund, if applicable.

Otter Creek Long/Short Opportunity Fund

NOTES TO THE FINANCIAL STATEMENTS – April 30, 2024 (Unaudited) (Continued)

At April 30, 2024, the Advisor may recapture a portion of the above amount no later than the dates as stated below. Any recapture of a fee waived or expense reimbursed should occur prior to the end of the third year after the reimbursement was paid, provided the aggregate amount of the Fund’s current operating expenses for such year does not exceed the lesser expense cap in place at the time of waiver or reimbursement.

<u>Years of Expiration</u>	<u>Amount</u>
October 31, 2024	\$124,039
October 31, 2025	200,754
October 31, 2026	281,304
April 30, 2027	115,703
	<u>\$721,800</u>

The Fund must pay its current ordinary operating expenses before the Advisor is entitled to any reimbursement. Any such reimbursement is also contingent upon Board review and approval.

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services (“Fund Services”), serves as the Fund’s administrator, fund accountant, and transfer agent. In those capacities, Fund Services maintains the Fund’s books and records, calculates the Fund’s NAV, prepares various federal and state regulatory filings, coordinates the payment of the Fund’s expenses, reviews expense accruals, and prepares materials supplied to the Board. The officers of the Trust and the Chief Compliance Officer are also employees of Fund Services. Fees paid by the Fund to Fund Services for these services for the six months ended April 30, 2024, are disclosed in the Statement of Operations.

Quasar Distributors, LLC (the “Distributor”) acts as the Fund’s principal underwriter in a continuous public offering of the Fund’s shares. U.S. Bank N.A. serves as custodian to the Fund. U.S. Bank N.A. is an affiliate of Fund Services.

The Fund has adopted a Distribution Plan (the “Plan”) in accordance with Rule 12b-1 under the 1940 Act. The Plan provides that the Fund’s Investor Class may pay a fee to the Distributor at an annual rate of up to 0.25% of the average daily net assets of that class. No distribution fees are paid by the Institutional Class. These fees may be used by the Distributor to provide compensation for sales support, distribution activities, or shareholder servicing activities. Fees paid by the Fund to the Distributor for the six months ended April 30, 2024, are disclosed in the Statement of Operations.

The Fund has entered into sub-transfer agent arrangements (“Arrangements”), for sub-transfer agent fees paid to third-party intermediaries, with respect to the Fund. All Arrangements must be approved by the Board. For the six months ended April 30, 2024, sub-transfer agent fees incurred by the Fund are disclosed in the Statement of Operations.

NOTE 4 – PURCHASES AND SALES OF SECURITIES

Otter Creek Long/Short Opportunity Fund

EXPENSE EXAMPLES For the Six Months Ended April 30, 2024 (Unaudited)

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs and (2) ongoing costs, including investment advisory fees, distribution fees, and other Fund expenses. The example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (November 1, 2023 – April 30, 2024).

Actual Expenses

The “Actual” lines of the following tables provide information about actual account values based on actual returns and actual expenses. Although the Fund charges no sales load, you will be assessed fees for outgoing wire transfers, returned checks and stop payment orders at prevailing rates charged by Fund Services, the Fund’s transfer agent. If you request that a redemption be made by wire transfer, currently, Fund Services charges a \$15.00 fee. You will be charged a redemption fee equal to 1.00% of the net amount of the redemption if you redeem shares that have been held for less than 60 days. Individual Retirement Accounts will be charged a \$15.00 annual maintenance fee. To the extent the Fund invests in shares of other investment companies as part of its investment strategy, you will indirectly bear your proportionate share of any fees and expenses charged by the underlying funds in which the Fund invests in addition to the expenses of the Fund. Actual expenses of the underlying funds may vary. These expenses are not included in the following examples. The following examples include, but are not limited to, investment advisory, fund accounting, fund administration, custody, and transfer agent fees. However, the following examples do not include portfolio trading commissions and related expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6). Then, multiply the result by the number in the first line under the heading titled “Expenses Paid During the Period” to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The “Hypothetical” lines of the following tables provide information about hypothetical account values based on a hypothetical return and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the tables are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as redemption fees. Therefore, the hypothetical lines of the tables are useful in comparing ongoing costs only and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

	Beginning Account Value 11/1/2023	Ending Account Value 4/30/2024	Expenses Paid During the Period ¹ 11/1/2023 – 4/30/2024

INFORMATION ABOUT HOUSEHOLDING (Unaudited)

Each year, you are automatically sent an updated prospectus as well as annual and semi-annual reports for the Fund, if applicable. In an effort to conserve resources, the Fund will reduce the number of duplicate prospectuses, proxy statements, and annual and semi-annual reports that you receive by sending only one copy of each to those addresses shown by two or more accounts. Please call the Transfer Agent toll free at (855) 681-5261 to request individual copies of these documents. The Fund will begin sending individual copies 30 days after receiving your request. This policy does not apply to account statements. In addition, see the Important Notice on the cover page for changes that were made to the distribution of the annual and semi-annual reports effective January 1, 2021.
